DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of Fig. 1 (directed to claims 1-13 and 15-17) in the reply filed on 01/12/07 is acknowledged.

This application is in condition for allowance except for the presence of claims 14 and 18-26 directed to species non-elected without traverse, as noted above. Accordingly, claims 14 and 18-26 will be cancelled, see Examiner's Amendment below.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In The Claims

Cancel claims 14 and 18-26.

Prior Art Citation

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Arai et al. (4,782,474), Ishibashi et al. (5,663,942) and Kume et al. (5,181,195), all disclose an optical disk apparatus having the ability of detecting and controlling offsets in the servo section.

Reasons For Allowance

The following is an Examiner's Statement of Reasons for Allowance:

The prior art of record alone or in combination does not teach or suggest the optical disc drive and method having the combination of elements and steps with their recited functions and process, along with having: an offset detector for detecting a first type of offsets that have been produced due to one of electric circuits of the servo signal generator, the offset detector detects output values of the servo signal generator as values of the first type of the offsets while the reference signal is output; a memory for storing the first type of offsets detected; a calculator for outputting one of the first type of actual offset and a second type of offset, as a correction value, the calculator deriving the second type of offset based on a variation rate of the first type of offsets stored; and a corrector for correcting the servo signal in accordance with the correction value, as set forth in claims 1-13 and 15-17.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MUHAMMAD N. EDUN whose telephone number is 571-272-7617. The examiner can normally be reached on FLEXITIME.
